

ESA Series

5-30kW/5-108kWh | Three Phase Energy Storage Solution (HV)

The GoodWe ESA Series 5-30kW/5-108kWh is a three-phase all-in-one energy storage solution that integrates the inverter, battery, and intelligent energy management into a single system. Its pre-wired, modular design unifies the inverter and battery, delivering an installation-friendly structure that streamlines setup and accelerates commissioning. With four battery module options-5, 6*, 8, and 9*kWh-up to 12 modules can be connected for a total storage capacity of 108kWh. Featuring simplified configuration, large expandable storage, and an AI-driven EMS for dynamic tariff optimization, the ESA Series 5-30kW/5-108kWh provides an efficient, flexible, and future-ready solution for both residential and small commercial use.

*: 6/9 kWh battery coming soon

Optimized Performance

- Up to 200% DC oversizing & AC backup overload
- Up to 1C charge/discharge for rapid energy cycling
- Smart fan cooling for quiet operation, noise as low as 30dB*

Superb Safety & Reliability

- Advanced 6-layer safety protection
- AI-driven AFCI 3.0 for safety
- Heating mode ensures reliable performance even in -20°C

Flexible & Adaptable Applications

- Dual-port design for whole-home backup
- Flexible battery mixing with different capacity or old & new batteries
- Supports on- and off-grid parallel operation

Smart Control & Monitoring

- Ready for AI-driven EMS
- Seamless switching to backup <4ms
- One-click upgrade & one-click configuration

General Data												
Operating Temperature Range (°C)	-35 ~ +60											
Relative Humidity	0 ~ 100%											
Max. Operating Altitude (m)	4000 (>2000 derating)											
Cooling Method	Smart Fan Cooling											
User Interface	LED, WLAN + APP											
Communication with BMS	CAN											
Communication	RS485, WiFi + LAN + Bluetooth, 4G + Bluetooth (Optional)											
Communication Protocols	Modbus-RTU, Modbus-TCP											
Weight (kg)	34	34	34	34	34	34	34	34	38	38	38	
Dimension (W x H x D mm)	800 x 340 x 270											
Ingress Protection Rating	IP66											
Mounting Method	Wall/Floor Mounted											

*1: When the input voltage ranges from 950V to 1000V, the inverter will enter the standby mode, and the voltage returns to 950V to enter the normal operation state.
 *2: Please refer to the user manual for the MPPT Voltage Range at nominal Power.
 *3: According to the local grid regulation.
 *4: GOODWE ESA series has internal bypass 63A passthrough ability to support whole home backup solution. If the customer don't want to do any breaker upgrade, the main breaker size in SolarGo(or SEMS+) can be set as previous breaker size.

*5: GOODWE ESA series has internal bypass 80A passthrough ability to support whole home backup solution. If the customer don't want to do any breaker upgrade, the main breaker size in SolarGo(or SEMS+) can be set as previous breaker size.
 *6: If the backup port is not used, select an appropriate circuit breaker based on the AC maximum output current.
 *7: "Off grid" means the energy of backup output only comes from PV and battery. "On grid" means the energy of the backup output includes the energy from grid or generator (on-grid) side.
